

TECH FOR EVERYONE

Grades K–2

Intro to AI

Vocabulary Cards

Revised Edition

Cut out the cards along the dashed lines. Match the word to its photo, quiz a partner, or play a memory game with the Words to Know from every chapter.

Name: _____

techforeveryone.app

VOCABULARY
CARDS

Chapter 1: How Robots See and Talk

 Cut along the dashed lines.**AI**

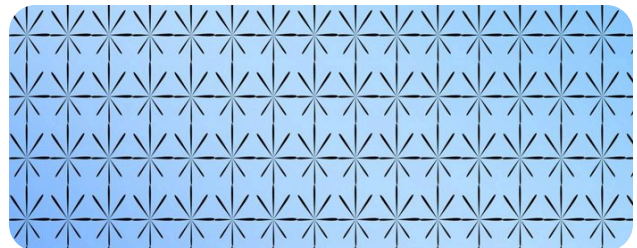

A smart machine made by people. It learns from examples.

**Robot**

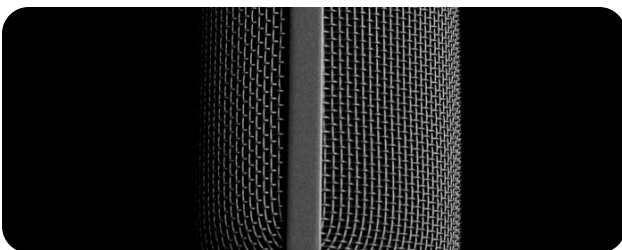

A machine that can move or do jobs.

**Pixel**

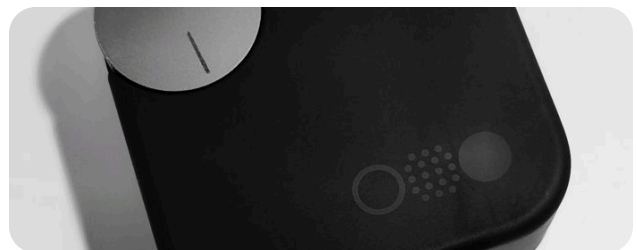

A tiny square that makes up a picture on a screen.

**Grid**

Rows and columns of squares or numbers.

**Microphone**

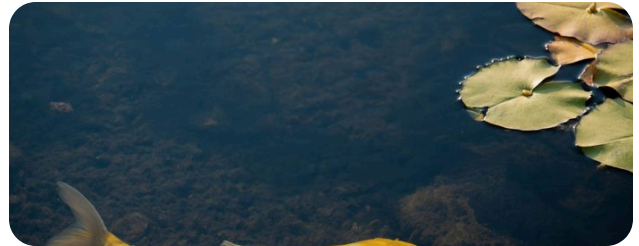

The tiny tool that catches sound and turns it into numbers.

**Smart Helper**

AI that listens for your voice and does what you ask.

VOCABULARY
CARDSChapter 2: How Robots Think
and Learn Cut along the dashed lines.**Algorithm**

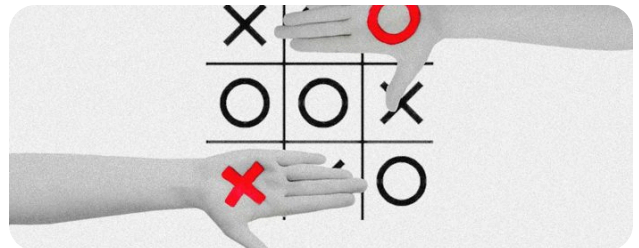

A list of steps that tells a computer exactly what to do.

**Data**

Examples a robot learns from.

**Pattern**

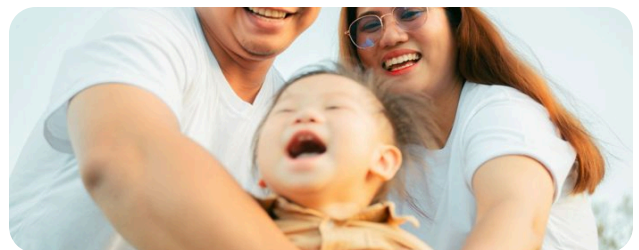

Something that repeats in a certain way.

**Predict**

To make a smart guess using what you learned.

**Rule**

What a robot decides after seeing many examples.

**Mistake**

When a robot's guess is wrong and people fix it.

VOCABULARY
CARDSChapter 3: Living with Smart
Machines Cut along the dashed lines.**Tool**

Something people use to do a job. AI is a tool.

**Fairness**

Treating everyone equally and kindly.

**Responsible**

Being in charge of making sure AI is safe and fair.

**Permission**

Asking if it is okay before using someone's things.

**Private**

Your address and password. Only family knows.

**Trusted Grown-up**

A person you can always go to for help.
