

TECH FOR EVERYONE

Grades K–2

Computer Hardware

Vocabulary Cards

Cut out the cards along the lines. Use them to practice your words — match the word to its meaning, quiz a partner, or play a memory game!

Name: _____

Chapter 1: Parts You Can See and Touch

 Cut along the dashed lines.

Mouse

A part you move to point and click.

Screen

The part that shows pictures and words.

Laptop

A small computer you can fold and carry.

Keyboard

The buttons you press to type.

Chapter 2: Hardware and Software — What's the Difference?

 Cut along the dashed lines.

Hardware

The computer parts you can touch.

Software

The programs that tell hardware what to do.

App

A program you tap to open, like a game.

Program

A set of steps that tells a computer a job.

Chapter 3: Fixing Simple Problems

 Cut along the dashed lines.

Frozen

When the screen is stuck and won't move.

Unplug

To take the cord out so power stops.

Restart

To turn something off and on again.

Help

Asking a grown-up when something breaks.
